The vineyards of Los Angeles county are loaded with grapes this season beyond any former year remembered. Prices will be good, and the grape-growers will be the most successful farmers in the State. Many new vineyards will be planted next Winter, and henceforth the business of grape-growing will become the leading horticultural pursuit in Southern California.

CENTRAL PACIFIC FINANCES.—The gross earnings of the Central Pacific story is believed to have been started Railroad for 1878 were \$17,530,853, which is over \$1,000,000 in excess of 1877. The expenses for 1878 were \$8,786,118, which is also more than \$1,000,000 in excess of the previous year. Taking from the net earnings the the following letter to the editor of the rental of leased lines and interest, there Sacramento Bee, in which he definies assets on January 1, 1879, were \$158,- monopoly: 973,712,

Mrs. Lord, the young woman whose marriage to old Lord created a sensation at the time of its occurrence, and who before that event was Mrs. Hicks, vided in his will that the sum of \$100,-000 should be paid her six months after his death, and she has just compromised with the trustees for the heirs for \$85,-000. She can now afford to keep a young husband.

In any handful of miscellaneous silver coin that one gathers in trading about town says an exchange at least 25 per cent. of the pieces have holes pierced through them or are otherwise mutilated. It may not be generally known, but it is nevertheless true, that it is an offense punishable by imprisonment for not more than two years, and by a fine of not more than \$2,000, for a person to subtract a portion of the gold or silver from a coin of the United States so as to make it of less weight or value than it ought to be. Besides being a statutory offense, it is a mean thing to mutilate the coins, whether it be for gain or other purpose, as it destroys the beauty of their appearance. The frequency with which one meets the silver coins with holes punched in them leads almost to the conclusion that somebody is trying to make money by this petty

Advices received in New York City has the confidence of not only Republicans but of the best men of all parties. I believe the people are willing to and report the wheat crop very poor in great will trust the destinies of the State in many places. This is particularly so in France, which, it is expected, will have to import 80,000,000 bushels. In Great Britain there has been incessant rain. This has caused great damage to the crops and will necessitate large importations of wheat into the United Kingdom, estimated at 120,000,000 bushels. The season in Spain, Italy and Hungary has been thus far a bad one for cereals, and at present it would seem that the deficiencies in those countries ble surplus besides, and the loys had will be of a serious nature. The rain made up their mouths for a divey of has completely destroyed the cereal that amount. As the company vill have become only to us tamps of the Grand crops in the northern part of Italy, but Prize mill, we presume the Firectors in central Italy the prospects of a good thought it doubtful whether a fifty harvest are favorable, while in the southwest and Sicily the crops are in tolerable condition, and in the southeast and Sardinia they are reported as excel-

Mayor Bryant, of San Francisco, is becoming unpleasantly mixed up with The Enterprise of Tuesday says the scandals of the Bay. The Bulletin of Monday afternoon publishes a portion of the testimony given by H. S. Tibby, late Secretary of the Dupont-street Commission, before the Grand July, which contains the following points: That Mayor Bryant was directly responsible for the appointment of Richard Ivers, who is associated with Bryant in business; that Ivers, instead of proceeding with the appraisement of property along that portion of the street proposed to be widened, secretly made contracts for the purchase of property on the line, Bryant being in with him in the affair; that they made over \$40,000 by the speculation besides an income from the property obtained; that Bryant first denied the transaction, but subsequently, when the trath could no longer be concenled, defended it; that the property owners on the east side of the street were wrong. fully mulcted by Bryant and Ivers to ont" a Limburger cheese factory in low, and with a degree of courage that is remarkable, even in lightning. which the waiter roplied went after the establishment with the waiter roplied which the waiter roplied which the waiter roplied with a legree of courage belong to the establishment?" to went after the establishment with the waiter roplied on the waiter roplied which the waiter roplied on the conspirate on the constitution of the stablishment with the waiter roplied on the constitution of the stablishment with the waiter could notigive belong to the question: "Do you belong to the establishment?" to transaction, presented himself before went after the establishment with the the Grand Jury and preferred charges of laudable intention of "clanning it out." CIVIL SERVICE REPORM.

There is no truth whatever in the report that the President intends to circular of June, 1877, known as his that certain Ohio and other politicians to the expedience of restricting future exercise his right of removal and to displace Democrats and lukewarm Republicans who are now incumbents of fede-1al offices. But there is no reason for believing that such advice has been enfor political effect in Ohio.

PERKINS ON LAND MONOPOLY.

Geo. C. Perkins. Republican nomineo for Governor of California, has written is a surplus left of \$2,304,903. The his position on the question of land

San Francisco, July 11, 1879. JAS, McCLATCHY, Esq., Sacramento;— Dear Sir: Your kind favor of the 3d. instant at hand, and your remarks have iny careful attention. Permit me to thank you for the interest you take in my success and that of the Republican has made a pretty good thing out of-her party. In regard to my views on land speculation. The old gentleman prosame as your own as expressed in yours before me. I believe it is the greatest barrier to the progress of our State. It is a relic of the old Feudal system that should have been abolished when barbarism and despotism gave away to progress and civilization. It is the pro-lific cause in other countries, as well as in this State, of dissatisfaction, distur-bance, distress, oppression and not in-frequently of murder itself. I am just as much opposed to agrarianism, how-ever, as I am to land monopoly. I do not believe in confiscation under any circumstances. But I believe in so framing the laws that land monopolists will find it more profitable to cut their estates up into small farms than they will to hold them themselves for speculative or other purposes. The new Constitution aims to accomplish this result. It is one of the best among many very excellent provisions in that instrument. Whoever may be elected to office, I trust the object nimed at will be carried into effect. It will undoubtedly be one of the greatest blessings, as land monopoly has been and is one of the greatest evils that has ever befallen the State. When-ever this is accomplished, I believe California will prosper as France has prospered, more so, as this State is far ahead of Franch, as well in the greater fertility and varied production of its soil as in

its geniality of climate. In regard to the result of the coming election, I feel confident that the Republican ticket will receive a majority of votes over all others combined. It the hands of the men named on the Republican ticket.

Sincerely yours, Geo. C. Pressins.

BELLE ISLE DIVIDEND .- The holders of Belle Isle in Tuscarora are considerably disappointed because the Pirectors declared only a twenty-five cent dividend. The Times-Review says

It was generally understood that there was a sufficient amount in the treasury for a four bit dividend and a consideracent dividend could be kept up, but a moment we wished that one of those who have examined the mine and them had made a mistaka and beare familiar with the ore are confident that the ten stamps will turn ou consid-erably over \$20,000 weekly for several months to come.

STRIKES AND RUMORS OF STRIKES .-

There were rumors yesteday of strikes, or at least great improvements in the Ophir and Alta and Benton. In in the Ophir and Alta and Benton. In the Ophir it was said that ore assaying as high as \$50 has been found in the bottom of the incline. Not a few of our people are changing from other stocks to Ophir. The feeling now is that Cophir will shortly go to the front. At the south end it was said that something very rich had been found on the Alta and Benton 1750 level.

Public Survey.

Prof. Einbeck, of the Public Survey, week making arrangements for the season's work in the field. He is making up his parties and planning their work. He will have several heleotrope parties stationed on the highest hills, each of which will consist of two persons. The state of the thermometer, barometer and other ometers will be flashed by this recent valuable invention from each point to headquarters, thence telegraphed to Washington, where "Old Probabilities" will guess at the weather for us. The public domain will also be surveyed. He will continue to operate until driven out by the weather.

Real Estate Transfers.

The following transfers of real estate have been recorded since the 1st:

R. V. Borden to W. E. Davis-North 70 feet lots 13 and 14 block 3, Western Addition, for \$650.

Wallace Burford to John Van Horn-15 acres in Truckee Meadows, for \$400. G. Thomas to K. A. Andrews-Lots 5 and 6 in block K, for \$700.

L. M. Moe to Richard Fenton--Lot block 5 Evans addition, for \$300.

It Might Have Been.

It has just been discovered that if the Highland Ditch Co, had taken out the water two miles above where they have they would have secured a much better route, saved \$2,000 in its construction and have been able to have covered 2,500 acres of land they cannot now reach. But Pete Evans says there is no use crying over spilled milk.

Entertainment.

The Ladies' Temperance Union will an entertainment, the proceeds of which are to go toward the new library building. The best musical and dramatic talent the town affords will be enlisted and it will doubtless be an excellent entertainment. Particulars hereafter.
